Zebra Blinds

Zebra Blinds

Zebra Blinds also referred to as High-Light Blinds or Transition Blinds, are classy window covering choices for any home. Similar in structure to the roller shades, these blinds have a singular style with two fabric layers alternating to create complete light filtering or dim out, sheer view, or a combination of the two – creating a similar effect to a zebra pattern.

The unique design allows for the ultimate control over, view, privacy, light, and style in the one blind. This makes them the perfect option for rooms such as living rooms, bedrooms, and studies. With the light filtering fabric open, an ambient level of light can enter the room whilst maintaining the privacy and when the sheer fabric is open, it is the perfect way to allow the natural sunlight to flood the room. Zebra Blinds are easy to clean and maintain with strong durable fabrics and components. They are simple to operate, with a color coordinated cord attached for easy transitioning of the fabric to the desired position.

The unique design allows for the ultimate control over, view, privacy, light, and style in the one blind.

Bamboo Shades

Bamboo Shades

Bamboo shades are a classic durable design and woven wood patterns. Comes with different color and texture. A unique & budget-friendly product and add texture to enhance your home beauty. Designed as a light filtering window covering, these shades gently filter light to create a warm and welcoming atmosphere.

These shades are durable and provide an elegant fold design that can be easily raised or lowered to gently filter harsh UV rays. Matchstick blinds provide a warm spa feel that is perfect for your living room, dining room, office, bedroom, sunroom, and patio to protect your furniture from fading while complimenting your decor. This product is light filtering and a semi-privacy sunshade not intended for full privacy or blackout. The matchstick slats have natural textures, which can cause color variances. It aims to provide a tropical getaway vibe that is safe for all with the innovative cordless mechanism. This pulldown shade is certified best for kids and user-friendly to withstand everyday use.

This product is light filtering and a semi-privacy sunshade not intended for full privacy or blackout. The matchstick slats have natural textures, which can cause colour variances.

Shutter Blinds

Shutter Blinds

These shutters are made of PVC, which provides high energy efficiency and lower energy costs. Their polyresin composition is an eco-friendly choice that makes them easy to clean, fire retardant, and guaranteed not to fade, peel, swell, warp or crack. With Aluminum insert for reinforcement.

Complements any style and represents timeless beauty and elegance. Outlives most types of window treatments. Generally unaffected by extreme temperatures. Easy Installation. Easier to maintain and in the event of a repair, wood is always available in different colors and stains to make your windows beautiful, decorative, and stylish.

Best products, professional advice, and market-leading warranties at a competitive price. We have you covered.

Roman Blinds

Roman Blinds

Our Roman shades combine the soft look of fabric folds with the operating ease and convenience of a traditional shade, stacking smoothly and evenly when raised. Roman shades can bring an elegant, traditional look to your home, or they can be contemporary and relaxed. Offered in many sumptuous fabrics, colors, folds, and opacities to suit your style.

The timeless appeal of Roman shades makes them a popular choice for almost any room in your home.

With Roman shades, the design possibilities are endless.

Skylight Shades

Skylight Shades

Practical, stylish, and sleek, our custom skylight shades are constructed with a honeycomb design that makes them lightweight while providing insulating properties. Specifically designed for skylight windows, these cellular shades operate smoothly at an angle on a durable track with a hidden gear system and are available in light-filtering and blackout fabrics.

Skylight shades have the added benefit of light control since they can be operated manually by hand or with an extension pole.

Let soft light in the room without any harsh sun glare or block light for complete darkness in the room.
